

Declaration of Pecuniary Interest

Schools manage a significant proportion of public funds and must demonstrate that no governor, employee or related party benefits personally from the use of funds.

Financial decisions must be seen to be made in accordance with the [Seven Principles of Public Life](#):

- Selflessness:** No financial gain or other material benefits for self/family
- Integrity:** Independent of outside influence
- Objectivity:** Decisions made on merit
- Accountability:** Accountable for decisions/actions to the public
- Openness:** Open about decisions and actions taken wherever possible
- Honesty:** Declare private interests, resolve conflicts to protect public interest
- Leadership:** Promote and support principles by leadership and example.

These principles apply to decisions with regard to procurement and staffing (including recruitment, contractual changes, casual/additional hours, reimbursements and expenses). Declarations should be made where individuals could have a significant influence on any decisions made both at school and with the related party.
